

Make AI work for your business.

Wysh AI makes it quick and easy for small businesses to start using powerful AI tools. Whether you want to attract more customers, save time on repetitive tasks, or reduce costs on expensive software, we build custom solutions that really work – for your business and your customers. No coding, no complexity, no confusion.

Grow your business

More customers, more insights

- ◆ Automated, reviewable marketing content generation and social media publication
- ◆ Personalized, automatic customer responses and follow ups
- ◆ AI-powered chatbots provides instant help for customers' questions and requests
- ◆ Use AI to conduct research on your audiences, markets, and industry
- ◆ Website and app improvements, integrations, and ideas for magical digital customer experiences

Run your business

Save time, save money, save effort

- ◆ Workflow automations eliminate repetitive, time-consuming, or unwanted tasks
- ◆ Personalized, automatic customer service responses and follow ups
- ◆ AI-powered chatbots to simplify back-office administrative tasks
- ◆ Use AI to review and connect your business data to identify opportunities and generate recommendations
- ◆ Replace expensive software licenses with simpler, custom tools that fit your needs

When you're ready to get started with AI... *just Wysh for it.*

Wysh AI makes AI made practical, personal, and powerful for every small business.
